Drs. Smoot, Sadrian, Hollan and Smoot

Dear Valued Patient,

I am excited to announce my recent partnership with Drs. John and Wendell Smoot, and Reza Sadrian!

They are highly respected plastic surgeons whom I have known and appreciated for many years. They all share my dedication to quality patient care, and we are looking forward to sharing our resources to bring our patients an even broader range of services and skills.

My commitment has always been to provide excellent care with integrity, honesty and confidentiality in a caring and compassionate setting. I believe this new partnership will allow me to continue to offer you the same personal care and special attention to detail that you deserve and have come to expect from me. I will continue to provide the full scope of surgical and non-surgical procedures.

My wonderful staff is joining me in our new adventure. You will still find us on the third floor of the Ximed Building on the Scripps Memorial Campus (next door in Suite 300, near the elevators), and we will continue providing some services in our current office in Suite 380. You can still reach us at **(858) 450-0440**, or **(858) 587-9850**. We won't let you get lost.

I look forward to enhancing your experience as my patient. It is truly an honor and a privilege to be your plastic surgeon.

With warmest and best regards,

Carol A. Hollan, M.D.

**** Now available - A Full Service Laser and Skin Care Clinic**

This includes the state of the art Sciton XC laser, a revolutionary laser not widely available in San Diego. The Sciton produces remarkable results with quite acceptable downtime.

To celebrate our growth, I would love to schedule you for a **complimentary consultation** along with a **facial hydration peel or micro-dermabrasion at no charge.**
